

Robert Frost~Challenge Center~Spanish Immersion GLOBAL CARDBOARD CHALLENGE

Hello Robert Frost ~ Challenge Center ~ Spanish Immersion Families!

Your student will see a short video called "Caine's Arcade"

(www.imagination.is/cardboard_challenge).

We are excited to invite your student to participate in our "Global Cardboard Challenge"!

WHAT is "Cardboard Challenge"?

This exciting night is a celebration of kid's creativity, play and imagination! Our kids will create games, machines, robots or interactive sculptures either in teams or as an individual using recycled boxes, toys, gadgets, what-nots, and doo-dads. They will bring their creations to school to share with friends, family, neighbors or anyone who thinks this is just cool and exciting! This is NOT a competition! This is just fun!

WHEN is "Cardboard Challenge"?

October 1, 2015

6:30 p.m.

Robert Frost gym and multi purpose room

HOW do we participate in "Cardboard Challenge"?

Watch the video with your student if you like! Then talk to them about their interest in participating. Fill out the form and return to the student's teacher (by Sept. 25th, please). Then help your student start collecting interesting parts for their "Cardboard Creation"! No items to buy ... most creations are from RECYCLED items! Possible sources are grocery stores, hardware stores, neighbors, friends, etc. Kids may even have some items of their own that they are excited about using!

It is truly our hope that this event is fun for our students! We have amazing kids here and are ready to let them loose with some duct tape and recycled items!

*Because of space limitations, Hobby Fair is now being held on January 14.

My student wants to participate in the RF~CC~SI "Cardboard Challenge"!

Name: _____
